Peace On Earth; Goodwill Toward Men

This is the season when the old Christmas song of the angels, "Peace on earth, goodwill toward men," will be sung throughout the world, when from press and pulpit the glories of peace and goodwill among all men and nations will be proclaimed, when exhortations will be voiced urging all people by precept and the force of example to do what lies in their power to promote these essential qualities at home and abroad.

Perhaps never before in the world's history did there exist a more earnest and widespread desire for international peace and goodwill, and the greatest and most outstanding evidences of this is to be found in the signing of the Locarno treaties, and in the growing influence of the League of Nations.

There is also in evidence in many countries, and happily so in Canada, a larger and growing spirit of tolerance. More and more there is developing a willingness among people to let bygones be bygones, to accord to others that same liberty of thought in matters of language, religion, politics, and racial customs which one demands for oneself. Canadians generally are not now concerning themselves with petty issues as to whether their neighbors of foreign birth continue to make use of their mother tongue, or worship God in some manner different from their own. There is, in Canada, a growing acceptance of a man for his own character and qualities quite apart from his racial origin, the language he speaks, or the altar at which he worships. The general recognition and acceptance of such views is essential to the development of peace and goodwill.

Unfortunately, there is one section of the world where, as yet, this spirit does not hold sway; where, on the contrary, all the old racial, national and religious antipathies are flaring, and still threaten the peace of the world.

The reference is to that group of small independent nations in Southeastern Europe known as the Balkan States. For the past three-quarters of a century or more this conglomerate mixture of races and religions has disturbed the peace of Europe, and hardly a year passes without the threat of a new conflagration. While the great nations of the world are anxiously striving for peace, these little States remain hot beds of suspicion and intrigue, seemingly ever anxious to fly at each other. Their populations have become so mixed that in each country there are racial and religious minorities always stirring up trouble and giving excuse for the enforcement of oppressive policies and acts of ruthlessness against them.

It was not a pretty nor encouraging picture of the situation in the Balkans which was drawn by Hugh Edwards, M.P., in the British House of Commons, in an address delivered before the Women's Canadian Club of Montreal, on the occasion of the meeting of the Inter-Parliamentary Union at Ottawa. Contrasting the spirit and policy of the British Empire in its treatment of minorities, Mr. Edwards said:

"The fierce and vehement discussion which took place in the Inter-Parliamentary Union meeting at Ottawa has made it very evident that these little Balkan States have not yet laid to heart the agonizing necessities of the late war. The Balkan Peninsula is still a seething cauldron of force, racial antagonisms; and unless some magic change is soon wrought in the temper of these little States it will not be long before the pot boils over again and drenches Europe once more with blood. We all rejoiced in the signing of that treaty with Germany at Locarno. It makes war impossible in the west of Europe. I am uneasy for the East, when I find these little States showing such bitterness and such fierce racial antagonisms."

Similar feelings related Canada's progress in the past. On more than one occasion great national questions were decided, not on their merits, but as the result of the most unworthy and sinister racial and religious propaganda. A better day has dawned in this Dominion, and the people will no longer countenance appeals of this nature. But Canada's interests require the removal of all such danger spots throughout the world. Our people may not be able directly to do anything very effective in the Balkans; but Canadians can by staunch support of the League of Nations, and by a friendly and brotherly attitude towards such of these Balkan peoples as have come to live in Canada, help materially to develop a right spirit and thus assist to overcome these old antagonisms. These newcomers in Canada will pass on the word to their friends and relatives in their former Balkan homes that there is a better way, while the League of Nations offers the only hope through which official and organized action can be taken among the Balkan peoples themselves.

Disarmament Is Only Solution

Locarno Pact Merely Marks Beginning
Of European Peace

What is to come after Locarno?

This is the question the British press and public are asking. Ramsay MacDonald and Lloyd George, both former premiers, Viscount Cecil and Austen Chamberlain, the foreign secretary, have repeatedly stated that the Locarno pact, which was signed Dec. 1, merely marks the beginning of Europe's peace. It settles the differences between France and Germany but the other European states and Great Britain now need guarantees against war.

Disarmament is conceded to be the only solution, but how this can be effected with safety and justice to all is a burning question.

Viscount Cecil indicated recently in the House of Lords that Britain was seriously considering a new disarmament conference and will shortly bring out disarmament plans of its own, but the difficulty of doing this is pointed out in the press, because of Britain's insular position and the resultant dangers she stands from enemy air and submarine forces. Though Germany and France are at peace, their air and undersea forces still menace the British Isles.

Heavy Grain Marketing

All records in the history of transportation of western crops were smashed on Monday, November 16th, when 3,125 cars were inspected at Winnipeg and other western points, whilst marketings totalled \$5,397,851 bushels.

An excellent protection against worms can be got in Miller's Worm Powders. They render the stomach and intestines untenable to them. They heal the surfaces that have become inflamed by the attacks of the parasites and serve to restore the strength of the child that has been undermined by the draughts that the worms have made upon it, and that their operation is altogether health-giving.

Early as 1500 A.D., goldfish were brought to Japan from China.

New Preference Rules Of New Zealand

Regulation Will Affect Canadian
Assembly Branches of American
Firms

New Zealand is doubling the percentage of British labor and materials required in imports under British preference rates. The present percentage of "British origin" required is twenty-five. The new regulations which come into force on April 1 next, require fifty.

The effect of this will be that Canadian goods exported to New Zealand will have to be fifty per cent Canadian labor and materials, if they are to get the advantage of the British preference. The increase will particularly affect Canadian branches of American firms which are only assembling, or partly manufacturing, in Canada.

German Press Praises Chamberlain

The action of Sir Austen Chamberlain, the British foreign secretary, in branding as false the war-time story of a German "corpse factory" is characterized by the German press as a creditable and statesman-like act.

Excellent Showing Made By Canada At The Chicago International Exhibition

While Canada failed to win the world's wheat prize this year at the International Hay and Grain Show, the crown was won by L. P. Yates, Flat-tail, Montana, with Marquis wheat, the seed of which came from the farm of Seager Wheeler, Northern Saskatchewan, was twice winner of the international wheat championship. In the fifteen years that the competition has been held Canada has won the most coveted honor of the show no less than thirteen times. Montana was the winner in 1921 with Marquis grown from Canadian seed. But the Dominion scored heavily this year also in the winning for hard spring wheat, carrying off twenty out of a possible thirty prizes. The highest score won by a Canadian went to W. J. Large, of Lacombe, Saskatchewan, who was awarded a fourth, and Seager Wheeler came next.

Montana also carried off the first and second prizes for oats in Region one. George Avery, Kelso, Saskatchewan, was third. Western Canada took eleven out of the twenty-five prizes.

In the Livestock Exposition Canada has made notable victories, the outstanding being the grand championship for Shorthorn bulls going to "King of the Faires" from the ranch of H.E.H. the Prince of Wales, at Pekisko, Alberta, which also was awarded the grand championship at this year's Royal Winter Fair in Toronto. Another signal victory in the Shorthorn classes went to P. A. Russell, Toronto, for "Waterloo Princess," a breeding Shorthorn, who was awarded a first prize.

As in other years at the International Show, Canada has again this year swept the boards for sheep. James Snell, Clinton, Ontario, winning most of the honors, taking a grand and reserve championship for Leicester, Colonel Robert McEwen, of London, Ontario, was awarded the grand championship on a carload of sheep, the fourth time he has scored a similar victory at the International. Colonel McEwen has won more grand championships on sheep than any other sheep breeder in North America. P. B. Clappell, of Hampton, Ontario, took a grand and reserve championship for Cotswold wethers and a number of other firsts.

The Manitoba Carriage and Warehouse Company, of Winnipeg, carried off first on "Bradwell" in the draft gelding class and "Prairie," owned by the same company, won a second in the two-year-old division of draft geldings.

The University of Saskatchewan won the grand and reserve championships and first prize with "Greenmeadow Footstep," three-year-old Clydesdale stallion; also the first and junior championship with "Bonnie Craigie," two-year-old Clydesdale. The Saskatchewan University also won first in colts foals with "Bonnie Craigie," and second in yearlings with "Bonnie Pittsburgh." James Duggan, of Condie, Saskatchewan, won first and reserve championship with "Parkdale Pyrie." The winners of the Saskatchewan horses include some of the most coveted victories in America.

Holland Wants Horse Meat

Curious Alberta Equines May Be Used For This Purpose

The Alberta minister of agriculture has received a request from the minister of agriculture, Antwerp, Holland, for a sample shipment of 2,000 pounds horse meat. This is a result of several months' efforts on the part of the minister of agriculture to establish a market in Europe for surplus Alberta horses. It is expected that if this shipment is found satisfactory, a considerable market will be opened up. The price quoted is \$6 a pound, f.o.b. Antwerp.

Humble Herring Getting Expensive

The humble herring, heretofore within the realm of the small retailer and little bourgeois, is going the way of other commodities in the upward trend of prices. Before the war nearly 100 pounds of herring could be bought with five francs. At present this sum will purchase only a little over two pounds.

W. N. U. 1697

The Fuel Situation

No Prospect Yet of Serious Coal Shortage in Canada

Hon. Charles Stewart, minister of mines, stated that the Dominion fuel board had been keeping in close touch with the domestic fuel situation as affected by the strike in the United States anthracite field, and has just completed an intensive survey of the stocks of domestic fuel on hand. In this survey the board has had the full cooperation of the miners, and has obtained from them a statement of the stocks on hand as well as the stocks which have been delivered to consumers. As a result the government is in possession of full information regarding our present situation in Ontario and Quebec and the amount of fuel that still has to be obtained to complete our year's requirements.

The survey indicates that a great many householders have taken advantage of the ample warnings of a possible shortage of anthracite by laying in a winter's supply early in the season. It indicates also that importations of the British anthracite have been heavier than ever before and that coke is being very widely used as a substitute for American anthracite. Most dealers are carrying various grades of sized and screened bituminous coal suitable for domestic use.

While there is at present no prospect of a serious shortage of coal, the minister stated, yet as an insurance against the possibility of the anthracite strike extending to the bituminous fields consumers should not hesitate to purchase supplies of any substitutes that may be secured. At the same time as a further insurance, steps are being taken to arrange with the railways for the rapid movement, if necessary, of coal from Alberta and the Maritime Provinces into the provinces of Ontario and Quebec.

Mr. Blank, in characterizing a former employee who is now a rival and competitor, said: "Why, he's a sharper, a thief and a liar, and I taught him all he knows."

Northern Wheat Limit Has Been Forced Back By Early Maturing Seed

Registered Seed

Success Attained in Western Canada Has Been Noted By Eastern Farmers

The success of registered seed grain production which has been demonstrated in recent years by local organization of seed growers in the three prairie provinces, is now being noticed by seed growers in Eastern Canada, and recently there came into being in Ontario and New Brunswick two local organizations of registered seed grain growers. These are the Kempenfelt Seed Growers' Association, specializing barley, and the Fredericton District Co-operative Seed Growers' Association, specializing in Banner and Victory oats.

Canada's Trade Increases

Notable Increase Is Shown in Trade Returns For Seven Months Ended October

Canada's total trade increased \$197,000,000 during the seven months ended October, according to government returns, this increase being in comparison to the figures for the corresponding seven months of the previous fiscal year. The grand total of Canada's trade for the seven months of 1925 is \$1,256,909,438 and the increase is amountable to \$129,000,000 in export trade and \$68,000,000 in import trade.

Record For Corn Production

An Ohio farmer again has broken the world's record in corn production, Mrs. Marshall, of Dola, this year produced 1,991 bushels of corn on 10 acres, or 35.1 bushels an acre above the world's record established in 1922 by W. H. Gilmore, of Licking County.

Remarkable Grain Transportation

C.P.N. Westbound Train Passes 31 Freight Trains in 378 Miles

An illustration of a remarkable grain movement now in progress on the Canadian Pacific Railway was furnished passengers on the Imperial Westbound one day recently. The run from Fort William to Molson, 278 miles, was made in schedule time, and in that distance and during that time the train passed on the double track 31 fully loaded eastbound freight trains, or a train every 21 minutes. These trains consisted of 1,850 loaded freight cars and it is estimated that in addition to other freight, they carried 2,760,000 bushels of grain.

Prairie Fisheries

Increase in Value of Catch For Two Out of Three Provinces

Increased in the value of the production of the commercial fisheries of two out of three prairie provinces of Canada were recorded in 1924, according to the Dominion bureau of statistics, the grand total reaching \$2,054,162. Manitoba accounted for \$1,253,553, Saskatchewan \$482,492, and Alberta \$330,107. Alberta showed a decrease of \$99,550. Whitetailed accounted for 42 per cent of the total value and pickerel for 28 per cent.

Will See Cathedral 32 Miles

The University of Pennsylvania's 62-story cathedral of learning, a structure of gleaming limestone 680 feet above the Oakland district of Pittsburgh, will be visible to the naked eye for a distance of about 32 miles in all directions. The cathedral will house practically all the activities of the university.

YOUNG SWINE RAISERS AT TORONTO SHOW

At the termination of the Canadian National Railway Bacon Hog Competition, open to members of boys' and girls' clubs, which was one feature of the Royal Agricultural Winter Fair at Toronto, Archie Campbell and Chester Brown, of Kilmorie, Ontario, were adjudged the winners and thus their club is entitled to hold the "W.D. Robb Challenge Cup for a year." Second place in this contest went to Lottie Austen, Myra Glen, and Annie Cameron, of Mahon, representing Hays School. The judges announced that the margin separating the two teams was a very scant one. Saskatchewan took third place, the representative of that province being Alfie Eutich and David Fulkas, of Winston, this pair making a most favorable impression in the lecture demonstration which formed the second part of the competition.

Fourth place went to Alberta, Clifford Lynn and James Wylie, of Vegreville, forming the team from that province. Wylie is a brother to one of

the youths from that province who won the trophy last year. Two boys from Prince Edward Island, Harold Smith and Edmund Robertson, of Pownal, were next. Ties came the Manitoba team, Ruby Pinkelner and Pearl Hodgson, of Decker. Two girls from New Brunswick followed; Alice and Lily Davis, of Port Elgin, and then the representatives of Quebec, H. Parnell and T. A. Woodward, of Lennoxville.

Following the decision of the judges, Dr. W. J. Black, director of the Department of Colonization, Agriculture and Natural Resources, Canadian National Railway, the organization responsible for this special competition, offered congratulations to the young men and the young women who had come to Toronto for this event. Dr. Black stressed the necessity for concentration and specialization and reminded his hearers that the future success of the railways depends upon agriculture, that the success of agriculture largely depends upon livestock and that the branch of that latter industry which promises the most profitable return is the bacon hog.

Mr. W. D. Hobb, vice-president, Canadian National Railway, is presenting the trophy to the Ontario boys, expressed his personal appreciation of the splendid work done by every team present; it being evident, he said, that each individual had worked earnestly and faithfully in order to win the provincial contest and with it the right to travel to Toronto. Each individual received a gold medal as a souvenir of the occasion and Mr. Hobb congratulated each personally for their efforts.

Photograph shows: Back row, Clifford Lynn and James Wylie, Vegreville, Alta.; Allan Lusk and David Fulkas, Winston, Sask. Front row, Pearl Hodgson, Decker, Man.; W. E. Watson, Agricultural Agent, C.N.R.; D. M. Johnson, Western Manager, Agricultural Dept., C.N.R.; Ruby Pinkelner, Decker, Man.

The first effect of the discoveries of Garnet and other early maturing wheats, became apparent when the federal department of agriculture officially announced that the northern limit of agriculture in Western Canada had been forced back from 60 to 75 miles and a vast new empire opened up for production purposes. The announcement was not issued until the final reports had been received from the northland, where seed plots were cleared last spring and where Garnet wheat was planted. Although the seed reached these plots much later than usual, in every case it ripened and was harvested before the frost came.

The full effect of this discovery can scarcely be imagined. A territory extending from east of The Pas on the Hudson Bay Railway to the Peace River district, and between 60 and 70 miles in breadth, now becomes good mixed farming country.

Hon.-W. R. Motherwell, minister of agriculture, who has been in the north, declared that he was delighted with the work that has been done.

His statement follows: "During the past season the federal department of agriculture has tried out the possibilities of growing different varieties of cereals, root crops and vegetables at Mile 126 and Mile 137 (north of The Pas) on the Hudson Bay Railroad on small plots of cleared land situated at those points."

"The seeds were not received early enough to sow before May 23 at Mile 126, and May 23 at Mile 137, but the long days with the long sunshine and short nights of the north cause a quick growth, and with many varieties, astonishingly good results were indicated when these plots were visited by an officer of the experimental farms branch about September 19 last. He reported that the season had been very favorable in the north, so far as sunshine and rainfall were concerned. All the varieties of wheat, oats and barley had done well, although at Mile 137 a somewhat better showing was made than at Mile 126."

"The early varieties of early crops of these cereals had already been harvested without damage by frost or otherwise, while the latter were practically ready to harvest at the time of his visit, September 19. Vegetables also made a good showing, peas doing especially well. Root crops were still somewhat small, but it was expected that they, together with all the other vegetables, would improve considerably during the few weeks following. It is expected that the final report of yields, etc., of the different varieties will be available for publication very shortly. Sufficient, however, has already been illustrated, even with the comparatively late sowing of last spring, to further demonstrate the possibilities of our prairie northland from The Pas to the Peace River in the growing of wheat and other cereals, made possible by the development of such early varieties of wheat as Ruby, Garnet, Howard, etc."

"A new homestead area would seem inevitable throughout this vast additional semi-wooded area, with its safety-first, mixed farming opportunities."

Alberta Coal Is in Demand

New Being Shipped As Far East As Changhai, Ont.

Charles Murphy, general manager of the Canadian Pacific Railway, western lines, stated that little or no coal was going to Manitoba from the south, nearly all the domestic fuel being supplied by Alberta. Ninety per cent of the coal in Winnipeg, he stated, came from Alberta, and the Alberta product was going as far east as Changhai in Ontario. "I think there is no question of the market being maintained if good quality coal is shipped," he remarked.

Boats Fuel-Saving Scheme

A century ago the British Parliament sanctioned the construction of the Montreal Railway, in Scotland. The motive power was the wind, and umbrellas were hoisted to catch it and send the trains along. The wind was not always in the right direction, and in these circumstances the train was pushed.

WORLD HAPPENINGS
BRIEFLY TOLD

John B. Booth, Canadian lumber king, died Dec. 8 at his home in Ottawa. He was 98 years of age.

The guarantors of the British Empire Exhibition are now being called upon to pay 15 per cent. of the guarantee—that is, 15 shillings for every £1.

Field Marshal Viscount Allenby will make a tour of Canada early in the new year and will reach Victoria in March.

The House of Commons has given final approval to the bill to give effect to the new Irish boundary agreement, passing it through its second and third readings without a division.

The failure of Canadian wheat to take first place in the Chicago International is blamed by experts on the short ripening season of this year.

A motion seeking to authorize the use of the lash on men convicted of the sale of narcotic drugs was unanimously passed in the B.C. legislature at Victoria.

Sir Hall Calme is in Palestine, where he is writing a book on the life of Christ. It is not expected that he will return to the Isle of Man until next spring.

Quarantined in his home with diphtheria, Rev. T. C. Collister, Methodist Episcopal clergyman, delivered a sermon by radio to a congregation in his church at Pueblo, Colo.

Glasgow Corporation recently banned the use of intoxicating drinks in the work of the special commission which is to prepare for an international disarmament conference.

The largest air express in the world is to be fitted as the first air restaurant car and will be put into service between London and the continent.

The saloon has luxurious armchair seats for 40 passengers.

Power to place an embargo on shipments of coal from U. S. to Canada and other foreign countries will be given under some of the proposals for coal legislation now before the U. S. congress. Little progress is expected this session, however.

Another Innovation For Turkey

Modern Motor Hearse Has Been Introduced In Constantinople

The westernization of Turkey has touched even its funeral rites. The motor hearse has been introduced in Constantinople. This innovation is the work of Emin Bey, the revolutionary Prefect of Constantinople, who has decided that the old custom, which prescribed that the dead be carried in a coffin by the shoulders of the bearers, involves unnecessary hardship. He himself purchased the new hearse. The first Occidental style funeral with a motor hearse was held in Constantinople recently for Hilar Bey, a young director of the Turkish Bank, killed in an automobile accident.

For Sprains and Bruises.—There is nothing better for sprains and contusions than Dr. Thomas' Electric Oil. It will reduce the swelling that follows a sprain, will cool the inflamed flesh and draw the pain. It will take the ache out of a bruise by counteracting the inflammation. A trial will convince any who doubt its power.

Another Boom In

Passion Play Village

Many Attracted By Celebration of Unveiling of Crucifixion Group Oberammergau, the Passion Play Village, left destitute by the World War, again is attaining a measure of prosperity. American orders for carriages have kept the people busy for a year, due principally to the visit of Anton Lang and other Passion Players to the United States.

The village's wealth was considerably enhanced also by the recent fiftieth anniversary celebration of the unveiling of the Crucifixion group promoted by the King of Bavaria. The celebration attracted almost as many visitors daily as does the Passion Play.

ECLIPSE
FASHIONS
Savienne Patterns
by H. L. L.

1205

Utility Top Coat

There's a swing and a swank to the coat pictured here, quite in tune with the crispness of the air. To every smart and carefully dressed woman the model pictured here will have an especial appeal. The upper part of the coat follows the lines of the figure to a point just below the hips, where it develops into a restrained flare through an inverted pleat at the side seams and centre back. Coats this season must have fur trimming, and brown fox makes a warm collar to snugle into on the cool days. Fox was also used for the cuffs. The coat is double-breasted, and the belt at the back, as well as the patch pockets, may be omitted. No 1205 is in sizes 24, 26, 28, 30, 32 and 34 inches bust. Size 38 bust requires 5 yards of 36 inch, or 3 1/2 yards of 54 inch material. The lining requires the same amount of material as the coat. Price 20 cents.

The designs illustrated in our new Fashion Book are advance styles for the home dressmaker, and the woman artist who desires to wear garments dependable for taste, simplicity and economy will find her tastes fulfilled in our patterns. Price of the book 10 cents the copy.

Canada's War Obligations

Large Payment Must Be Met In Next Twenty Years

The Financial Post of Toronto has been citing Canada's financial condition and calls for the formulation of some definite plan to take care of the war debt. During the next 20 years Victoria War loan issues to a total of approximately \$2,000,000,000 will be come due and payable. It is unlikely that this debt can be wiped out by a young country like Canada with in the period stated. Yet it is seven years since the armistice was signed and nothing has been done to make plans to take care of this situation.—Acton Press.

Sores Heal Quickly.—Have you a persistent sore that refuses to heal? Then, try Dr. Thomas' Electric Oil in the dressing. It will stop sloughing, carry away the proud flesh, draw out the pus and prepare a clean way for the new skin. It is a recognized healer among oils and numbers of people can certify that it healed where properly applied.

"A girl's father sent a man after me with a car one time."
"Wasn't that lovely."
"Not so—he was the chief of police."

A Novel Film Studio

Movies Dealing With Public Health Produced In England

A film studio which possesses novel features is situated in the back garden of an old-house in Bermondsey, London, England.

Here are produced, under the guidance of Dr. H. King Brown, medical officer of health for Bermondsey, propaganda pictures dealing in matters of public health and well-being. Subjects of the films include child welfare and the prevention of contamination of food by flies.

Dr. Conan, who is in charge of the propaganda work of the department, acts as producer, camera man, and writer of the "sub-titles," while all the actors are clerks, doctors, and nurses on the staff of the department.

On a large wooden platform at the bottom of the garden the various scenes are "shot," and whenever filming is in progress a large crowd of Bermondsey's children may be seen gathered outside the wall, hoping for jobs as scene-shifters or "supers."

This "film advice" is given in a straightforward way, and is not wrapped up in stories with imaginary characters. Dr. Conan says that he finds people pay more attention to the advice given if it is done this way. After all, it is so easy to make baby's bath time into a humorous episode if one is not very careful.

The only part of the work not done by the health department staff is the developing and finishing off of the films. This is a highly technical matter, and is better left in the hands of experts.

HEALTH BROKE DOWN

Could Not Get Sleep For Hours After Going to Bed

"It is not natural for me to sit down and write a letter in praise of a proprietary medicine as I had always been skeptical as to their virtues." Thus writes Mr. Arthur Segun, Storvik, Alaska. He writes further:—"But three years ago I opened a general store here in Storvik and placed on my shelves the lines of the best known proprietary medicines. Among these, naturally, were Dr. Williams' Pink Pills. At that time there were three of my customers who were obtaining good results from taking the pills, and as I was in need of a medicine, I decided to try them myself."

"I had been suffering from catarrh for years, and my inside work had completely broken down my health. I was coughing all day, suffering from indigestion, and could not sleep until three or four hours after retiring. I started the pills, not with any great confidence, but by the time I had finished the second box I marked much improvement. At the fourth box I felt quite recovered, but continued them for some further time. My cough has left me, the indigestion has disappeared and my inside work is almost as soon as I am in bed. I am sure now I do not hesitate to recommend Dr. Williams' Pink Pills to any who are feeling run-down or without energy, as I think they are a blessing to mankind."—John Paul, 111, St. Paul, Minn.

Danger In Short Skirts

Influenza and Rheumatism Follows Train of Fashion Says London Physicians

London is having an epidemic of "short skirt influenza," a chill often followed by rheumatic pains in the knee and hip joints, the sufferers being women who wear fashionable scanty skirts in spite of the inclemencies of the London winter.

Physicians say this year's three or four exposure to illness more than covers even the skirts are short and flaring, not to say the warmth of the short tight skirt of a year ago. The wearing of warm knickers with the modish skirts is being advised by doctors.

The Last Asthma Attack may really be the last one if prompt measures are taken. Dr. J. D. Kellogg's Asthma Remedy will safeguard you. It penetrates to the smallest bronchial passage and bring about a healthy condition. It always relieves and its continued use often has a permanent effect. Why not get this long-remembered remedy today and commence its use inhaled as smoke or vapor if it is equally effective.

Some Painting

Wilder—"Don't you think Clara is a good looking?"
Alex—"Yes, she's as pretty as a picture, but she has such a narrow frame."

OUR CROSSWORD PUZZLE

SUNDAY SCHOOL LESSON
DECEMBER 20

PAUL'S SUMMARY OF HIS LIFE

Golden Text: I have fought the good fight, I have finished the course, I have kept the faith. 2 Timothy 4:7.

Lesson: 2 Timothy 3:10, 11; 4:1, 6.

Devotional Reading: Revelation 21:1-7.

The Text Explained and Illumined

Timothy is Reminded Of Paul's Sufferings and Persecutions, 3:10, 11. Timothy had followed his teaching, Paul writes; he had witnessed his conduct, he had realized his purpose, faith, long suffering, love and patience. He had known about the manifold persecutions which Paul had had to endure at Antioch, Iconium, Lystra and elsewhere; and the great fact that out of them all God had delivered him. And then Paul warns Timothy that persecution is the common lot of all faithful followers of Christ Jesus. "For in plenty we shall meet. Hearts courageous scorn defeat. So we press with eager feet Up and on. Ever onward to the light. Ever true to God and Right. Up and on!—John Oxenham.

World's Largest Motor Ship

Sweden Has Most Modern Example of Marine Architecture

A new visitor has made his bow to New York harbor.

The newcomer is the Gripholmen, the largest motor ship in the world and the largest to fly the flag of Sweden. Flying the housejack of the Swedish American line, she left Gothenburg November 21 on her maiden voyage.

The Gripholmen is of 23,500 tons displacement and 374 1/2 feet long, driven by two giant Diesel engines. She is one of the most unusual vessels afloat, and is the most modern example of marine architecture burning neither oil nor coal but using electricity throughout the ship—for power, heat, and cooking. Her tunnels are partly rammed and partly for use as elevator shafts.

Teacher—"Now what is the angle DBC equivalent to?"
Boy (returning from land of Morpheus): "The department of street cleaning."

It costs more to avenge our wrongs than it does to protect our rights.

Answer to Last Week's Puzzle

Recruiting Reserve Air Force

Enlistment on Voluntary Basis Is Only An Experiment

Voluntary recruiting of the special reserve and auxiliary air force squadrons which are to form an important part of the programme of home defence against air attack was commenced at the beginning of November, following a speaking campaign by Sir Samuel Hoare, secretary of state for air, in the Kingdom's industrial centres.

This enlistment of the maximum amount of skilled knowledge of aviation in the country on a voluntary basis is only an experiment, Sir Samuel acknowledges, but it is an experiment that must be tried fully, if merely for the sake of economy. For the Royal Air Force is bound to be expensive both in officers and men, with not only the will but also the practical experience through his profession or trade to build up an efficient air unit of defence with the minimum amount of annual training.

No other country has yet endeavored to tackle its air defence problem along the same lines.

To Acquire Country Elevators

Acquisition of country elevators has been decided upon by the board of the Manitoba Wheat Pool which has notified the United Grain Growers, Limited, that it is prepared to lease or purchase their elevators at points where the pool locals have decided to acquire a pool elevator.

GOOD PROGRESS IS REPORTED BY THE RED CROSS

Toronto—Reports presented at the meeting of general council of the Canadian Red Cross Society here revealed a steady expansion of the organization's activities throughout the Dominion, particularly in regard to the home nursing classes, outpost hospitals and port nurseries.

In reviewing the work of home nursing, Col. Nalmsith stated that 496 classes had been started since last year when the nursing problem was inaugurated. These classes represented 5,388 women who had completed the course of instruction and about 2,800 more who had been enrolled. The new classes organized in each provincial division from January 1 to October 30 were: Ontario, 92; New Brunswick, 47; Alberta, 16; Nova Scotia, 31; Saskatchewan, 32; British Columbia, 5; and Prince Edward Island, 4.

The report of the outpost committee showed 31 outposts, with three in Alberta; 10 in Saskatchewan; 5 in Manitoba; 12 in Ontario; and one in Nova Scotia. These have 166 beds and 50 nurseries.

Mrs. W. Plamptre presented the report on the ports and stated that 66,000 infants had been cared for in the Red Cross nurseries at St. John, Halifax and Quebec.

Vickers Announce Reduction In Capital

Decreased Earnings Is Cause Says Big Arms Firm

London.—The biggest reconstruction of any British company since the war is announced by Vickers, Limited, which will drastically write down its capital by many millions sterling, as the result of greatly decreased earnings in recent years.

The firm of Vickers, Limited, ranks among the world's largest manufacturers of all classes of armaments.

The firm contracts ships, builds "military" types of aircraft, produces steel and manufactures practically every kind of ordnance. It maintains ordnance factories in Kent, shipyards at Barrow, aircraft works at Weybridge, and steel works at Sheffield, Leeds and other cities.

Blue Sky Legislation

Appeal Is Made From Prairie Provinces For Better Protection

Winnipeg.—Pressure from the prairie provinces for adequate "blue sky" legislation, with particular reference to the sale of stock, has brought an assurance from Thomas Mulvey, undersecretary of state, that more careful scrutiny will be given to applications for incorporation of companies.

In a letter to Hon. H. W. Craig, attorney-general for Manitoba, Mr. Mulvey indicated that available information is being received and that the question will be ultimately referred to the government.

Danish Kroner Reaches Par

Montreal.—The economic life of Denmark is slowly but surely adjusting to the normal condition with the Danish kroner at par. During the month of October the increase in the value of the Danish kroner was continued, although, owing to a short release in the rate of exchange during the early part of the month, the average quotations in October were 24.61 compared to 24.45 during September.

Fruit Dear In Australia

Winnipeg.—J. W. Dufon, writing of his Australian tour, says: "After spending a whole day driving through orange groves within 100 miles of Brisbane, I went into that city and paid as much for oranges as I would have paid in Winnipeg. A lady member of the party, checking up prices on the market, found small fruits and vegetables higher than in England."

Provides Efficient Service

"The C.N.R. has completed forty years as a transcontinental railway, and it may be fairly stated that never at any time in the period was the system more efficiently operated than at the present."—Grain Growers' Guide.

W. N. U. 1607

Have Reached Accord On Arms Conference

Division Between England and France Has Been Adjusted

Genova.—England and France reached an accord concerning study of the problem of mutual assistance in war time in connection with the preparation for the international disarmament conference.

After a secret meeting of the League of Nations Council, M. Paul Boncour of France, announced that President Millerand of Czechoslovakia had been appointed to draft a formula covering the question which divided the British and French.

He explained the study of mutual assistance would be more flexible than originally proposed by the French, thus intimating that a compromise had been reached.

The impression is growing that Britain favors separation of the study of land and naval armaments, keeping the road open for a possible second naval conference in Washington, while France continues to regard the disarmament problems as one and inseparable.

Ratifies Boundary Pact

Ulster Parliament Approves the Irish Boundary Agreement

Belfast.—The Ulster Parliament has approved the Irish boundary agreement, after which Sir James Craig declared that he confidently believed a new era had begun, not only in Ulster and the Free State, but in the whole world so far as Irish affairs were concerned.

The premier also announced that at the London negotiations the vexing problem of Ulster's political prisoners had been settled. "The British prime minister, Mr. Baldwin, asked him if it would be possible, as an act of grace, to deal leniently with the Free State prisoners. The Ulster premier agreed that the cases of prisoners convicted in the north for offences during the period of the disturbances would be reviewed by the British Government, and that the decision in each case would be accepted by the Ulster Government."

Early Winter In Sweden

Have Not Had Such Severe Weather In Thirty Years

Stockholm.—Real winter has come to Sweden earlier than at any time in the last 30 years. Ice breakers already are being used along the Baltic coast, and instead of steamers and sloops, skaters are skimming over the inland lakes.

A record low temperature of 22.6 degrees Fahrenheit below zero has been reported from Malung, in the Western Malaric. Further north, in the area district of Lapland, a snowstorm has been raging so violently that three electric car lines of the state railways are shut-bound between Kiruna and the Norwegian border.

"Radio Novels" Newest Idea

New York.—The "radio novel" is predicted by Cosmo Hamilton, who has conducted one of his books, containing 80,000 words, so that it can be broadcast in 15 minutes.

LEAGUE IS ASKED TO STOP WAR OF FRENCH IN SYRIA

Geneva.—A Syrian emissary went to the League of Nations Palace and demanded that the League Council take action to stop the bloodshed in Syria. But as the council had approved the plan of the mandate commission to meet in Rome in February to probe this problem, the indications are that it will not recognize the Syrian petition.

The Syrian representative left documents. One purports to be a copy of a dispatch to the League of Nations from the Syro-Palestine Congress, declaring that Syria for five months has been the scene of a sanguinary war and that French artillery and aeroplanes have been bombarding and burning villages. It charges that the French are arming the Christians against the insurgents and provoking a civil war.

A famine menaces the country and thousands are homeless in a rigorous winter, the document continues, and the intervention of the League of Nations is awaited. A request is made for the dispatch of a commission to carry out an investigation.

Probe Confession Of Alleged Girl Spy

French Police Engaged In Ascertaining Extent of Plot

Paris.—Official alliance marked the beginning of the judicial investigation into the espionage confession of the 26-year-old Parisienne, Marie Morelli, with whom, it is alleged, three British men are implicated—James Leath, Ernest O. Phillips and William Fischer.

Mrs. Morelli apparently has been engaged in espionage activities for several months, her efforts being directed against the air defenses of France. Her confession, said to be quite complete, is accepted by the police with reservations, and police energies are now engaged in ascertaining the extent of the plot and what so far has been accomplished.

Find Prehistoric Whale

Bones of Whale Found Six Feet Deep In Danish Bog

Copenhagen.—The skeleton of a prehistoric whale has been discovered 21 miles inland from the North Sea coast, imbedded six feet down in a bog of North Schleswig. Experts of the Institute of Geological Research at Copenhagen have taken charge of the excavations for the skeleton, hoping to find an answer to the puzzle of how the whale got so far from the sea.

Fight With Druse Tribesmen

Jerusalem.—British frontier gendarmes have clashed with Druse tribesmen for the first time, according to reports received. A band of tribesmen chased the French across the boundary line at Mottulsh, and refused to surrender their arms, whereupon the British guards fired. Several were wounded on both sides.

London Office Cares For Canadian Veterans

Eleven Persons Employed on Dominion High Commissioner's Staff

London.—Care of Canadian pensioners and attention to the needs of permanently injured Canadian veterans in the United Kingdom will require a staff at the high commissioner's office in London. A statement from that office recently said:

"The general public hears very little of the work in the high commissioner's office carried on under the direction of Major C. G. Arthur, the Canadian department of soldiers' civil re-establishment, yet the work today occupies a staff of 11 persons, besides Major Arthur and his assistant, G. R. Middleton, who find as much to do now as they did five years ago. Last month 7,803 pension cheques were sent out. There are today 275 men on the strength for treatment for war disabilities and these men are served with all sorts of orthopaedic appliances. The department looks after Canadian ex-soldiers all over Europe, but at the present time only two or three are outside the British Isles.

Prize Hen At Chicago Show

White Leghorn Is Valued at Five Thousand Dollars

Chicago.—Hazel, a White Leghorn hen valued at \$5,000, with a record of 294 eggs, and Millionaire, a white Poland hen, owned by Mrs. Howard McClain, Lima, Ohio, led the 2,500 entries in the Seventh Annual Mid-West Poultry and Pet Stock Show here. The most valuable prize offered is that of the \$1,000 by Governor Len Small for the best mated pen of chickens. He had also donated an award for the best cat in the show. The poultry will become broadcasters during the show, a local station having arranged to read the cackles, quacks and gobbles every morning at 7 o'clock. Among new classes in show, a Chinese feathering chicken, a non-fler, but a good layer and fine meat producer.

Saskatchewan Legislature

Four Bills Are Given Their First Reading In the House

Regina.—Four bills were given their first reading in the Saskatchewan Legislature, a bill to amend the Attachment of Debts Act, a bill to amend the Corporation Taxation Act, a bill to amend and consolidate the law relating to Arrangements of Taxes and a bill to ratify the Lloydminster public school scheme.

Premier Dunning gave notice of a bill respecting places of payment of certain provincial debentures and for other purposes, while Dr. Ulrich gave notice of a bill to amend the Venereal Diseases Act.

November Railway Accidents

Ottawa.—Accidents during November on Canadian railways, according to a report by the board of railway commissioners, totalled 263, resulting in the death of 18 people and injury to 288. There were no passengers killed, but 24 employees and 16 others met their death. Among the injured were 34 passengers, 204 employees and 60 others.

IMMIGRATION TO BE BIG QUESTION FOR PARLIAMENT

Ottawa.—The by-election in Bagot has relieved the political tension considerably, but has not been followed by much outward activity in the capital save preparation for the session. Departmental estimates are in readiness, but are said to contain little apart from the ordinary routine. There is every reason to expect that, when preparing a programme with which to meet parliament, the government will pay heed to the recent representations of the Associated Boards of Trade and make provision for a policy of assisted immigration. The demand for this and also for aid in carrying it out by means of a non-political advisory committee is strongly emphasized. The arguments are supplemented by the discovery of the new variety of wheat which, by ripening so much earlier than the ordinary kind, will open up to immigration and to cultivation, hitherto barren, but heretofore have been unoccupied. If the government succeeds in getting the requisite support to carry on, there is little doubt but that the immigration question will loom large in the session apart from the acute interest attending the political situation.

When Premier King seeks a seat—and there is yet no indication of a change in his plan of first seeking an endorsement by parliament—he will probably stay in Ontario. To leave it, might be construed as abandonment of the province. However, quite a move is on to have him go to St. Boniface, Manitoba, while other seats have been tendered in Saskatchewan and Alberta, and several in Quebec. Ontario seats that have been spoken of are Prescott and West Mississauga. Evidently no conclusion has been reached.

To Be More Dignified

United Church of Canada Frowns On Loud Advertising

Montreal.—Spectacular, lurid and competitive advertisements of Sunday church services in Saturday newspapers were frowned upon at the Montreal Presbytery. United Church of Canada, meeting in Emmanuel Church here.

A motion that a committee be formed to take United Church of Canada notices out of the competitive class, substituting a uniform and dignified notice for all the churches in the Presbytery, was carried.

Canada In Britain

Thinks An Exhibition Train Would Advertise Canada

London.—C. P. Beaudin, of Montreal, addressed the Anglo-American Press Association at luncheon here on the possibility of organizing a Canadian exhibition train to tour Britain as an advertisement for Canada and Canada's products.

An exhibition train in Britain, he was confident, would increase not only the Canadian trade, but also the number of British immigrants to Canada.

Woman Cavalry Captain Dead

Moscow.—Russia's famous woman cavalry captain, Nadezha Budenaya, commander-in-chief of the Red Cavalry, is dead. The cause is not clearly known, and one newspaper ascribes it to a tragic incident. Captain Budenaya served with distinction throughout the war against the White Russian forces, fighting side by side with her husband, and was wounded several times.

Ex-Empress Is Improving

Brussels, Belgium.—There is no present anxiety over the condition of ex-Empress Charlotte, aged widow of Maximilian of Mexico, who was reported gravely ill. Baron Godeaux, of Charlotte's ministerial court, maintained at her bedside, declared that the health of the ex-empress, despite her 85 years, was not such as to cause worry.

Important Event Celebrated

Winnipeg.—Winnipeg, on Dec. 31, recalled the arrival of the first railway train from the United States 47 years ago. A brief anniversary ceremony was conducted with railway officials from the south as honored guests.

NEW OIL-ELECTRIC CAR ON CANADIAN NATIONAL

Arrival in Western Canada of the new Canadian National Railways oil-electric car on an endurance run from Montreal to Vancouver under its own power, and its subsequent return to Edmonton where it was placed in service on the Edmonton-Vermilion run, replacing a mixed train service, has created much interest among railway men and the travelling public generally.

The new car, shown above, carries approximately 60 passengers. In addition to baggage and express, and made a record run to Vancouver. Other cars of similar type, and also of an articulated type, carrying 120 passengers, have been placed in service in Eastern Canada, where they are giving excellent service at reduced operating cost. More cars are now being

built and others are to be sent to the west for branch line service. The car operates on electricity, generated by a fuel oil engine of aeroplane type, and working out of this method of traction by Canadian National engines gives promise of great reduction in fuel and operating costs. Each of these cars is capable of handling a trailer when necessary.

The Widow's Chance.
In a certain New England vil-
lage where the Sunday church at-
tendance was small lived a young
widow who had taken quite a
fancy to the minister. She could
guess that he also cared for her, but
was evidently too shy to say any-
thing. One Sunday evening the
congregation was smaller than usual.
After services the clergyman said to
the widow: "Did you like my
sermon?"

"It was beautiful," she replied.
"I wish more people would
come," he said.
She saw her chance. "So do I,"
she answered. "Why, tonight, ev-
ery time you said 'dearly beloved'
—I positively blushed."

Little beams of moonshine,
Little hugs and kisses,
Makes a little maiden
Change her name to Mrs.

Then you need a photo,
No matter where you go,
And the best place to get it
Is at Christie's Studio.

Handsome Cup for C. P. Liner Making World Cruise

At Southampton, the Canadian Pacific liner *Empress of France* was presented with a silver cup 27 inches high weighing 167 ounces on Friday, October 30 by C. S. Quartermaster on behalf of the Round the World Cruising Party on this ship during the winter 1924-25. The cup is a copy of the Gold Estacade Cordiale Cup presented to France by His Majesty King Edward VII and was given as a token of their appreciation for the splendid time the passengers enjoyed on their long cruise. The Cup, with suitable inscription, was placed in a niche in the library of the ship and a replica of it was presented to the Commander of the ship, R. Griffiths, R.N.R. This memento has a specially high value in the eyes of the officers of the ship as it represents the satisfaction of passengers who had made a three months voyage of 34,000 miles under their care. The inscriptions speak for themselves. On the cup is engraved: Presented to the Canadian Pacific R.M.S. "Empress of France" by passengers on the 1925 Cruise in appreciation of a remarkably successful voyage of 34,000 miles. Commanded, R. Griffiths, R.N.R. Inscription on the Replica presented to the Commander reads as follows: This Replica presented to Commander R. Griffiths, R.N.R., R.M.S. "Empress of France" by passengers on the 1925 Cruise in appreciation of his skill, tact and unflinching courtesy throughout a most wonderfully successful voyage of 34,000 miles. With even greater comfort on board the palatial ocean liner than any to be had on shore it is not surprising that cruising has seized the popular fancy. This year many will avail themselves of the opportunity of making the Round the World Cruise on the Canadian Pacific liner, *Empress of Scotland*. The liner leaves New York on December 5 and returns April 10 via the Panama Canal after visiting over 20 countries en route, including 26 ports of call, and arriving in the Holyland on Christmas Day. Cruise members proceed to Jerusalem and Bethlehem by train after disembarking at Haifa. After a day and half visiting scenes made memorable by the life of Our Saviour the party goes on to Cairo by train.

Stony Plain and District.

Mr Dan McKinlay is down
from the Sturgeon this week.

Mr Warrnack of the Grove
is leaving for Saskatchewan
where he will spend Xmas
at the home of relatives here.

About a score of local hockey
fans motored into the city Tues
day evening to see the Eskos
get trimmed by Saskatoon by
the score of 5 to 2.

A Christmas concert by the
Rosenthal school pupils will
be held this year on the evening
of Wednesday, Dec 23, at the
school house.

Monday's trains were held
up for several hours due to
the derailment of nine freight
cars on the main line 4 miles
west. No 1 remained at Stony
till well on into the night and
No 4 was also delayed a con-
siderable time.

The Girls' Club of Stony
Plain held their play "The
Voice of Authority" in Hol-
born Hall last Friday night
and which proved to be a
great success. A dance fol-
lowed the show which was
well attended but 'Herm' says
there was a serious lack of
young couples.

The annual Christmas Con-
cert of the Holborn school
pupils will be held this year
on Monday, Dec 21 at Hol-
born Hall instead of Tuesday
as was previously announced.
A dance will follow the en-
tertainment, the music will
be provided by Barth's Orche-
estra.

Fresh Caramels made from
cream and butter, 45c per lb.
Clarke's Drug Store.

Bring your hides and
poultry to the Cash Store
where the highest market
price is being paid.

If you want a good saddle
horse call at the local police
detachment.

Leave your subscriptions at
the Drug Store for any mag-
azines or papers printed in
Canada or the United States.
Regular Prices.

JUDICIAL SALE OF FARM PROPERTY.

Public Auction by Cecil W. McKenna
Auctioneer, at the Post Office, in the
Town of Stony Plain, in the Province
of Alberta, on Saturday the 26th
day of December 1925 at 2.30 O'clock
in the afternoon the following lands
S. R. 1 Sec. 16 Tp 62 R 27 W 4th M.
100 acres more or less, containing Mines
and Minerals.

The property is offered for sale sub-
ject to a Reserve bid. The Vendor is in-
formed of the following particulars:
The property is situated about 4 miles
south west of Spruce Grove and about
3 1/2 miles from nearest school; that
about 80 acres have been cultivated,
and buildings on same are Log House
30x20-16x18; Log Barn 28x34, Frame
Granary 30x34, Frame and log hen-
house 16x28, there is a good well and
land is fenced all around with 3
strands barbed wire.

The terms of payment are as follows:
The purchaser will pay down at the
time of sale 10 per cent of the pur-
chase price to the Vendor's solicitor
and the balance into Court within
sixty days from the date of sale with-
out interest. The purchaser may ob-
tain a loan of \$2000.00 on property.

In other respects the terms and con-
ditions of sale will be standing con-
ditions of sale of the Supreme Court
of Alberta, as approved by the Master.
For further particulars apply to F.
W. Lindsay, Barrister, Stony Plain,
Alberta.

Dated at Edmonton this 30th day
of November, 1925.
Approved A. Y. B. "R. P. Wallace"

Stony Plain and District.

Calendar.

18—Dance, Duoholke's Hall.
21—Xmas Concert, Holborn.
22—Xmas Concert, Glory Hills.
23—Xmas Concert, Rosenthal.

Mr Paul Mersallith drove a
herd of bossies into Edmonton
from the Graminia district on
Monday.

Quite a heated discussion
ensued on the corner of Main
on Monday over a certain
party seen on the street Sun-
day morning, who has been
in the hospital for over a
week.

The two local hockey teams
were out on Brant's pond on
Sunday and had a good prac-
tice game. After a strenuous
two-hour session the score
was found to be 14 all after
which they adjourned for
supper, the game being replayed
all over again by parley.

A large crowd gathered at
the home of Pitzler Bros last
Friday night, including parties
from Edmonton, Lega, Spru e
Grove and Stony, where they
spent the evening entertained
by radio music from the lead-
ing broadcasting stations in
the States and Canada. When
the Old time dance music was
broadcast from Calgary the
floor was filled with old as
well as young who greatly en-
joyed the good old music. The
party terminated in the early
hours of the morning and all
voted it as one of the most
enjoyable evenings spent here-
abouts.

The Stony Plain Garage
has put through two Real Es-
tate deals for the purpose of
improving Ford Service hav-
ing established a Ford agency
at Onoway and Evansburg
with headquarters here in
Stony. Ford Service garages
will be erected at these two
points early next spring with
competent mechanics in charge
to render the very best of
service to Ford owners and
would-be owners.

Santa-Claus wired his ag-
ency here acknowledging re-
ceipt of letters from Nora
Brooks, Walter Foerster Har-
old Hartman and Ruth Mohr.
Santa states that he is now
en route to Alberta and ex-
pects to be in Stony on time
next week. Be sure and hang
up your stockings as he has an
over abundance of toys this
year. Santa is making the
trip this year by aeroplane in-
stead of the usual reindeer
sleigh because of the lack of
snow, so kiddies get to bed
early and stay real quiet un-
til next morning.

Moccasins.
CARL FISCHER.

Here and There

Lumber Industries of British
Columbia are sending spruce to Bos-
ton and New York, fir to Florida
and Cuba, new markets created with-
in the last few months. Demands
from western fir markets in Great
Britain, Asia, Australia and South
Africa are reported better than
normal.

The demand for Canadian flour is
increasing rapidly in the Orient.
This year 347,750 barrels of flour
were exported from Medicine Hat
mostly for the East. Great Britain
is Canada's best customer for wheat
flour, having taken 180,000 barrels
of the total of 684,688 barrels ex-
ported during the month of August.

The Canadian Pacific Rockies are
not "shot up" yet. Following a 30-
day hunting trip, Mr. and Mrs. Kol-
lock, of Los Angeles, told of deer
that walked right up to camp; bears
that prowled all around in numbers;
rams and mountain sheep in abun-
dant; lakes full of trout caught with
every throw of the line.

Despite alleged trade depression
and "blue rain" talk, during the
week ending October 31, 1925, 67 new
companies were formed with author-
ized capitalization of \$151,000,000, as
compared with 59 companies with \$112,
614,875 capital the previous week
and with 37 companies with \$7,568,
000 capital, the corresponding week
of last year.

During the 26 hours from Monday,
November 9, to Thursday, Novem-
ber 12, the Canadian Pacific Rail-
way loaded a car of grain every 58
seconds, the total being 6,160 cars.
On Wednesday 1926 cars were loaded
and on Thursday 1,816, while the
record for the year and for many
years past was reached on Friday,
November 13, when 1,994 cars were
loaded.

Involving the use of 2 1/2 million
tons of crushed rock, or about 70,
000 carloads, approximately 1,000
miles along the Canadian Pacific
Railway, Eastern Lines, have been
ballasted with rock to date. Rock
ballast is durable and thus insur-
es a very great increase in comfort for
the passenger. Rock-ballasting also
increases the strength of the track
and otherwise improves its physical
condition as to drainage and other
matters.

The Canadian Pacific Railway has
announced the offer of three free
scholarships to apprentices and other
employees enrolled on the perma-
nent staff of the company and under
21 years of age, and to minor sons
of employees. The scholarships
cover four years tuition in architec-
ture, chemical, civil, mechanical or
electrical engineering at McGill Uni-
versity and are subject to competi-
tive examination.

Taking steps in the United States
toward a greater recognition of clean
sportsmanship and the need of con-
servation of fish, game and forest
resources, Oran H. Wiley, of Tennes-
see, editor of Field and Stream, Out-
door Life, Outing, announced at
Montreal recently that catching game
fish with worms had been banned
in practically all states of the re-
public. Worm fishing is considered
destructive as small fish returned to
the water are too badly wounded
to live.

Sugar beet production in Canada
is increasing on a phenomenal scale
while the value of refined beet sugar
has increased about 100 per cent. In
1924, in 1924, 33,111 acres were
planted to sugar beets yielding 255,
177 tons of beets, from which 55,
770,709 pounds of sugar was refined
with a value of \$4,102,648. In 1925
there was a yield of 159,900 tons of
beets from 17,941 acres. The value
of the 39,423,180 pounds of sugar
refined was \$2,745,200.
